Our Pledge to People + Our Planet.

We've been making wood furniture longer than just about anyone...and we want to be doing so for a long time to come. That's a large part of why we take a stewardship approach to our resources. We believe that environmental sustainability and business profits need not be mutually exclusive. They can and should exist side by side in a mutually beneficial relationship. And for more than a century, we've been showing how it's done.

We've proven our commitment to a sustainable future by supporting the standards and programs that protect our home planet and human health. Whether it's local sourcing, reducing contaminants, implementing wellness and safety programs, or diverting waste from landfills, social responsibility is a part of every decision we make at Indiana Furniture.

One of the surest ways to reduce our impact on the planet is to make and buy things that last. And this one's a natural for us. Our products are made with craftsmanship and attention to detail that are a part of our legacy in wood manufacturing. And our products are backed by our 12-year warranty, which facilitates maintenance, servicing, and reassembly.

100% of our product lines:

- Are manufactured and assembled in the USA,
- Meet or exceed Indoor Air quality standards*,
- Meet or exceed BIFMA level® Sustainability standards and certification*,
- Conform to the BIFMA Compliance standards and certification*,
- Comply with TSCA Title VI (CARB) standards,
- and can contribute to LEED®, Green Globes®, and WELL® Sustainable Programs.

SQUARE ONE
GETTING STARTED & PLANNING

STEP 1: PLANNING FOR SQUARE ONE

Planning for Square One is based on configuring 12"x24" and 24"x24" blocks in nearly any manner to create space dividing walls, coves, work zones, and more within open environments.

Idea Starters/Typicals:
When you select one of our pre-configured Typicals, everything you need comes specified together, including the blocks, caps and posts, hardware, glides, and more.

- Select the typical number (e.g., 17-4), then specify the finish and hardware color.
- Add optional accessories (see Step #5).

Make Your Own Typicals:
There are endless opportunities with Square One, giving you the ability to create unique setups to meet the specific needs of your customers.

- We recommend utilizing our Specification/Drawing Services team, who can help in bringing your vision to life and ensure all the necessary components are included. To get started, just send us a drawing. You can use our easy online request form: Design Request Form
- Steps #2 - #5 outline the process for specifying your own typical. Please provide a drawing with the order to ensure accuracy.

STEP 2: SPECIFYING BLOCKS

When making your own typical, choose the quantity of blocks needed to create your design. We offer single blocks in two styles: 24"x24" and 12"x24".

- Blocks can go up to four high (8') and do runs of five wide (10') without a supporting wall or anchor to create stability.
- We recommend using single 12" x 24" blocks on the top or ends. If placing on the bottom or in the center of the design, using two of them together will ensure alignment with the holes bored on attachment items like End Caps, Corner Posts, etc.
- When creating an "L" or "T" design, we suggest going a minimum of three blocks wide to ensure stability without additional support.

STEP 3: CAPS, POSTS, CONNECTORS, AND SPANNERS

Next, determine what Caps, Posts, Connectors, and Spanners are needed to complete the design.

- End and Top Caps are necessary to ensure a clean and balanced aesthetic (as they hide the attachment hardware/ensure no empty holes are showing where attachments would have been).
- Square One offers connection beams to create 90° turns (Corner Posts), three walls (T-Connectors), four walls (X-Connectors), and span doorways or other openings (Horizontal Beam Spanners).
- End Caps, Posts, and Connectors should always be specified to run longer (taller) than the unit so that the end of the top cap or horizontal rail will not be seen (there are only a few exceptions).

STEP 4: HARDWARE, LEVELING, AND GENERAL ASSEMBLY

Whether connecting square to square or square to post, individual components come with the necessary hardware. Should you need more, we offer separate Bolt Kits to provide proper installation.

We offer heavy-duty, adjustable leveling glides to compensate for uneven floors. A tool (6mm allen driver bit) is also available to insert the glide nuts. The glides must be ordered separately from the blocks.

We do not offer connection methods to anchor to the floor or wall. We recommend discussing this with the building's facility manager for proper connection. Indiana Furniture will not be liable for wall or floor mounts that are not properly installed.

Assembly Instructions may be found on our website.

STEP 5: ACCESSORIES

Add function without sacrificing beauty. Acrylic Inserts, Tackable and Acoustical Panels, Dry Erase Boards, and TV mounts can give your space the ability for more privacy, collaboration, or brainstorming.

- Dry Erase Boards and Tackable Panels have onset installation.
- Dry Erase Boards can be mounted either vertically or horizontally.
- Acoustical Panels are either specified onset or inset, and Acrylic Inserts are inset.
- Tackable Panels are fully upholstered, so a clean aesthetic is seen from both sides of the blocks.
- Acrylic Inserts lock into insert retainers which are installed on top of the hardware, inside of the block, allowing for a quick and tight-fitting installation.
- Frosted Acrylic Inserts can be customized with a logo or image, giving you freedom to create a personal touch. Provide a .CDR, .AI, or .EPS file. Extended lead times may apply.
- We offer the Vesta Power Data Center and other similar items to add power within your Square One spaces created.

Please verify your desired fabric before ordering as such orders are not subject to return to Indiana Furniture.

FABRIC REPEATS

Indiana Furniture will make every attempt to match obvious patterns within a single chair from the seat to the back, vertically and horizontally.

Matching fabric patterns from chair to chair may require extra yardage and must be noted on the order to avoid delays in shipments. If the order will require COM to be matched from chair to chair, please contact Customer Service at 800-422-5757 to optimize the yardage for multiple quantities and pattern matching.

FRAMES & GLIDES

All wood frame chairs feature kiln-dried hardwoods which are double-doweled, securely glued, and screwed for maximum joint stability.

Guest chairs ship with nylon glides as standard. Felt glides (FELT) are also available on many of our wood Guest Chairs at no additional charge. Must be specified on the order.

UPHOLSTERY FOAM

All Indiana Furniture chairs consist of a high grade polyurethane foam that meets CAL 117-2013.

FINISH

Indiana Furniture standard seating finishes correspond to casegoods and conferencing finishes and laminates. Minor variations in finish color and value may occur due to the natural characteristics of wood. Consult this price list for specific finish availability within each series.

Special Finishes: Indiana Furniture is able to accommodate our customer's needs for specific finish matches. Please submit a 3"x5" sample panel to Customer Service for quotation and lead time.

FINISH CONTINUED

All Indiana Furniture Chairs feature a catalyzed varnish finish which offers lasting beauty and resistance to normal wear.

Tables will feature our UVAdvantage finish or a catalyzed varnish finish. See individual series for specific information.

An overview of our finishes and laminate options can be found on the inside of the back cover of this price list.

CASTERS & NAIL TRIM

Indiana Furniture contemporary swivel chairs are standard with black hooded dual wheel carpet casters.

All Indiana Furniture traditional seating has brass accents (casters and nail trim) where applicable. Silver accents are available. Please specify (NSLVR) at no additional charge.

In addition, some of our traditional seating is available with no nail trim as requested (NONT) at no additional charge. Must be specified on order.

CONTROL OPTIONS

See individual series within this price list for control options and pricing.

Knee-Tilt Control
The Knee-Tilt control features a heavy-duty torsion bar or a spring tension control which allows variable tension for different body sizes and weights, and minimal rise of the seat's front edge. This allows the user's feet to remain planted while reclining to a relaxing position.

CAL 133 CERTIFICATION

California Technical Bulletin 133 (TB133 or CAL133) is a composite fire test for fully-assembled seating manufactured for use in certain public buildings. As such, the certification is specific to the fabric that is used in conjunction with the frame and the barrier. Many Indiana Furniture seating products, in combination with some of our standard fabrics, can be manufactured to meet the requirements for certification. Depending on the frame style, a fire-retardant barrier or fire-retardant foam will be incorporated in the chair construction to provide the best opportunity for a successful CAL133 burn test.

The cost of the test is $1220 (net) which includes the test, freight to the test facility and the fully-assembled test sample. Once payment has been made, please allow approximately 6–8 weeks for the production of the chair and the completion of the test. Once we receive the successful certification, the order may be placed allowing for 1 week extra lead time using the "CAL" prefix on the model number with an upcharge of $185 list per chair. Please contact Customer Service at 800.422.5727 to order the test.

If you do not need the actual Certification, but wish to have the chairs manufactured to meet the regulation, we can upholster the chair using the fire-retardant components at the $154 list upcharge per chair. Please order the appropriate frame allowing for 1 week extra lead time, using the "CAL" prefix in front of the model number.

CAL	California Test Cost (NET)	$ 1220
	Up Charge Per Chair	$ 185

Please note that if you wish to have Certification on a COM material, Indiana Furniture must approve the fabric according to the COM policy as well.
