Modular Double Base Units with Kneespace
Assembly Instructions

Components:
- 16 – Base Assembly Screws, #8 x 1 3/8" PFH

If unit has a "modular file"
- 10 – Screws, #8 x 1 3/8" PFH (Quantity Per Cabinet)

If unit has a "modular storage cabinet"
- 10 – Screws, #8 x 5/8" PPH (Quantity Per Cabinet)
- 2 – Screws, #8 x 1 3/8" PFH (Quantity Per Cabinet)

Units Required:
- 2 – Modular Storage Cabinet or Modular File
- 2 – Modular Cabinet / Credenza Base
- 1 – Modular Triple Cabinet / Credenza Top

❶ If installing two cabinets with a space between them, both cabinets are inset ¾" from each end of the top and ¾" from the front of the top.

❷ If a "modular file", insert screws through mounting rails and fasten cabinet to the top.

If a "modular storage cabinet", insert 5/8" screws through the metal brackets on the end and back panel and two 1 3/8" screws through the top front rail and fasten the cabinet to the top.

❸ To assemble to base assemblies to the cabinets, turn the cabinets upside down and align the base assemblies on the cabinets.

❹ Insert the screws through the mounting strips on the bases and fasten to the cabinets. (as shown)

❺ Insert levelers into the base assemblies.

❻ Turn the entire unit to the upright position and level as needed.
