Cooperative Purchasing Program

Indiana  
FURNITURE

## What Is GOVMVMT? And What Makes It Different?

**GOVMVMT** is a cooperative purchasing program that meets the highest industry standards while giving back to the communities in which we operate. **GOVMVMT** was developed by Innovative Government Services Association (IGSA), a nonprofit organization, as its first program for public agencies.

As a true not-for-profit cooperative purchasing program, **GOVMVMT** is a public-focused cooperative that centers around providing the most value to our public partners through dependable programs and services.

**GOVMVMT** provides additional public benefits by reinvesting fees generated from our programs into the communities in which we all live and work.

### AWARDED SUPPLIERS

Each one of **GOVMVMT's** community of first-class suppliers has consciously joined our mission to create the most credible, ethical, and public agency-focused nonprofit cooperative purchasing program in the country.

### PUBLIC CONTRACTS

Every **GOVMVMT** contract was solicited, evaluated, and awarded by a city, county, state, school district, or higher education Institution. Every **GOVMVMT** contract is held by an actual public agency—not a third-party organization.

### GOVERNMENT SOLICITATIONS

**GOVMVMT's** government contract solicitation process is founded on the Lead Public Agency Model. Considered the gold star of public procurement by industry professionals, this procurement process relies on transparency.

**GOVMVMT** is focused on creating a credible, collaborative environment where public agencies and Indiana Furniture can work together to provide quality offerings for a true public benefit.

## Who The Contract Serves?

If you're a public agency in need of a dependable public procurement process, Indiana Furniture and **GOVMVMT** are here to serve you.
