

A World Where We Can All Thrive.

We've been making wood furniture longer than just about anyone...and we want to be doing so for a long time to come. That's a large part of why we take a stewardship approach to our resources. We believe that environmental sustainability and business profits need not be mutually exclusive. They can and should exist side-by-side in a beneficial relationship. And for more than a century, we've been showing how it's done.

Social Responsibility

We are proud to be a supporter of many local, regional, state, and nationwide organizations and are always looking for opportunities to give back. Annually, we contribute to over 75 worthy organizations. We do this by donating time, financial contributions, and our products depending upon the support needed.

A level® Portfolio

level®, BIFMA's sustainability certification program for furniture, is a comprehensive and transparent third-party certification program. The level mark attests that the product, the manufacturing facility, and the company responsible for the product brand, have been evaluated against the multi-attribute criteria of the ANSI/BIFMA e3 Furniture Sustainability Standard. All of Indiana Furniture's solutions are BIFMA level® Certified.

Specify With Confidence

When you choose Indiana Furniture, you choose an expansive portfolio of style and options that can be specified with complete confidence. All of Indiana Furniture's solutions are BIFMA Compliant Certified.

This program is designed to provide members of the design community, dealers, buyers, and others who participate in the specification of commercial furniture greater ease in identifying products they can trust.

TSCA Title VI (CARB)

EPA's TSCA Title VI (including CARB Compliance), the Formaldehyde Standards for Composite Wood Products Act, establishes the most stringent standards for composite wood. These products include but are not limited to Particleboard, MDF, Hardwood Plywood, and Laminated products. All of Indiana Furniture's products meet the TSCA Title VI regulations.

BE Well

Health and safety is a top priority at Indiana Furniture and we want to assist in the physical and mental well-being of anyone working with or using our products. Whether it's driving safety procedures, implementing wellness programs, or reducing contaminants, being well is a part of every decision we make at Indiana Furniture.

CEUs + Continuing Education

To further knowledge and education within our industry, we offer multiple CEUs and webinars focused on the role of furniture in designing sustainable spaces.

Contact us today to learn more about our current CEUs or to join a CEU event.

UV Advantage Finish

Our UV Advantage finish does not emit irritable toxins, formaldehyde, or solvents into the air, contributing to safer and healthier work environments by meeting Indoor Air Quality Certification requirements.

UV Advantage exceeds the performance of other UV topcoats available on durability and reduces the likelihood of damage from abrasions, scratches, and common chemicals, all while magnifying the beauty of wood and lessening the darkening, aging, and yellowing process that naturally occurs over time.

Indoor Air Quality Certified

All of Indiana Furniture's products have achieved Intertek's Environmental VOC Certification and are recognized as products that safeguard indoor air quality.

The certification demonstrates that Indiana Furniture's products conform to the ANSI/BIFMA Furniture Emissions Standards (M71/X71-2011) for Office Furniture Systems and Components. They also earn points for US Green Building Council's LEED Credits.

LEED Contribution

Indiana Furniture can help customers seeking U.S. Green Building Council's LEED-certification through products that can contribute to specific criteria.

The LEED program is a voluntary certification system designed to promote buildings that are environmentally responsible, profitable, and healthy places for people to live and work. The U.S. Green Building Council also encourages companies to identify opportunities to salvage and reuse furniture in project design and research potential material suppliers.

Green Globes Contribution

Indiana Furniture can help customers seeking the Green Building Initiative's Green Globes certification with products that can contribute to specific criteria.

Green Building Initiative (GBI) is an international nonprofit organization and American National Standards Institute (ANSI) Accredited Standards Developer dedicated to reducing climate impacts by improving the built environment. Founded in 2004, the organization is the global provider of the Green Globes® and federal Guiding Principles Compliance building certification and assessment programs.
