

Traditional components echo history and create timeless foundations for meeting rooms that complement our Jefferson and Arlington casegoods collections, and Cameo and Jefferson Reception options. Facilitate presentations with lecterns and visual presentation boards. Mobile serving carts and buffet height credenzas provide additional in-room utility.

CONSTRUCTION

Cameo Tables and Components feature your choice of either a Veneer or HPL top, Veneer bases, and Veneer chassis (where applicable).

VENEERS

- Veneers on exposed surfaces are select grade sliced American Black Walnut and are carefully selected and matched to assure proper balance and consistency

LAMINATES

- Exposed surfaces are produced from wood grained laminates fused to a particle-board core
- Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance

TOPS

- Wood Veneer tops are 5-ply balanced construction and High Pressure Laminate (HPL) tops are 3-ply balanced construction
- Tops are 1 $\frac{3}{16}$ " thick with solid hardwood rims
- All buffets, credenzas, serving carts, video cabinets, and storage/wardrobe cabinets are shaped on user side only
- Grain direction runs left to right unless otherwise noted

CHASSIS

- Tops and end panels are securely fastened using high quality
- European fastening systems to ensure maximum strength
- All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors

DRAWERS

- All drawer fronts are standard with elegant vertically matched walnut veneer faces
- Drawers feature 5-sided construction with $\frac{3}{4}$ " 3-ply fronts, $\frac{7}{16}$ " thick hardwood sides and $\frac{5}{32}$ " hardboard bottoms
- Units with 36" wide file drawers feature $\frac{1}{4}$ " thick drawer bottoms for maximum storage strength
- Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance
- All drawers feature full extension, progressive action slides with precision steel ball bearings
- Box and file drawers are tested for 100lb capacity
- Lateral files are tested for 200lb capacity
- All suspensions have a limited lifetime warranty

STORAGE

- All hinged doors include soft close hinges, unless otherwise noted
- One piece hinge and base plate combination
- Soft close hinges reduce stress placed on the cabinet when the door is closed and offers a quiet closure

LOCKING

- All units with file drawers feature locking
- Removable lock cylinders allow for units to be re-keyed at a later date if required
- Units are shipped randomly keyed as standard. Keyed alike units available upon request at no additional charge.
- Keyed alike units available upon request at no additional charge
- Lock cores match pull color

Standard Cutout Types & General Location Information

- Grommets can be specified, at an upcharge, add \$11 for a field installed grommet cover or add \$50 for a factory installed grommet (unless otherwise noted).
- Power/Data Modules can be specified in standard locations at no additional charge.
- The selection of both the Power/Data Module and Base will determine cutout locations for each table size, as well as placement over or between bases.
- [See exact measurements of Module locations.](#)
- For specific locations available by table size see series pages, [see Cameo locations.](#)

Cutout Locations Available

OC = On Center
BB = Between Bases (*requires 2 modules*)
CL = Left of Center
CR = Right of Center
EL = End Left
ER = End Right
ML = Middle Left
MR = Middle Right
