Davenport ⬤ CRYPTON.

Well-protected by our exclusive Crypton finish, Davenport is a beautiful, quality leather with a soft hand and a good drape. Aniline dyed and finished with a durable yet light finish, Davenport is stocked in over 25 colors, making it the perfect choice for a broad range of applications. Natural markings are minimized by enhancing the surface with an embossed grain which maximizes yield and increases the cutting area.

Caprone   *Can be finished with a Crypton® protective topcoat

Superbly priced for a leather of its quality, Caprone is prized for its durablity and versatility. The hides are first aniline-dyed in the drum, then finished with an extraordinarily strong, yet silky smooth hand. This practical upholstery leather comes in over 40 colors and features large clean cutting areas. This product is especially well suited for high traffic areas and public spaces

Old English   *Can be finished with a Crypton® protective topcoat

Old English is a beautiful hand-antiqued leather combining traditional craftsmanship with modern leather tanning and finishing technology. The two-tone coloring is applied completely by hand in our U.S. facility. The surface is then enhanced with a polished sheen, which accents the intricate blending of the color treatments and protects the leather against wear and spills, making Old English a good choice for any application.
