# Reminisce Seating

## **Technical Specifications**

#### **Construction & Materials**

**Seat/Back:** Swivel seats feature high quality sinuous springs with weight distribution rods paired and guest seats include

high quality resilient sheet webbing. Both swivel and guest have 11/2" thick high-grade polyurethane foam in the

seat and back to ensure a comfortable seating application.

Frame: Exposed wood components and chair frame are manufactured using European Beech and are free of spirits,

discoloration, pits, shakes, and wormholes; base caps are manufactured using select Maple. All chair joints are double-doweled or mortised and tenoned, screwed, and glued for maximum strength and durability. All seats feature corner blocking. Frames are individually hand assembled and sanded prior to being finished.

Non-marring nylon glides included in each leg at floor level.

Finish: A multi-step, hand-finishing process on all exposed wood frames. Chairs feature a catalyzed varnish finish

which offers durability, lasting beauty, and resistance to normal wear.

#### **Features**

Create a timeless foundation for office environments with traditional style that is classic and enduring.

• Select from tufted or plain backs to best fit your design vision and environment.

· Swivels feature swivel-tilt control with pneumatic height adjustment and tension control.
