

Catalyst Tables

Technical Specifications

Construction & Materials

- Veneer:** Exposed surfaces feature select-grade, plain-sliced hardwood Cherry, Maple, American Black Walnut, White Oak, and composite Veneers, carefully selected and matched to assure proper balance and consistency. Our veneer features UVAdvantage, an ultra-violet finish, on all exposed surfaces by utilizing roll-coat UV technology.
- Laminate:** Thermally-Fused Laminate (TFL) and High-Pressure Laminate (HPL) are made of woodgrain and solid color laminates fused to particleboard core; each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance.
- Tops:** Available in Veneer or HPL with double kerf, duo, and square edge profile, 1 3/16" thick with 3-ply balanced construction and 3mm PVC or wood edge-banded rims contoured to selected profile. Knife edge tops are 1 3/16" thick with solid wood rims. Vertical square edge tops are 1 1/2" thick with 1.5mm wood edge-banded rims in veneer tops and 1mm PVC edge-banded rims on HPL tops. Grain direction for veneer tops runs the depth of the top and width of the top for HPL tops.
- Chassis:** Chassis are fastened by using high quality European fastening systems to assure maximum strength. All units ship with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.
- Bases:** Available in Veneer or Thermally-Fused Laminate (TFL) with vertical grain and L-bracket hardware for easy installation. Rectangle box bases include removable panel for wire management and trough for support. All units ship with heavy duty, adjustable leveling glides to ensure proper leveling and to compensate for uneven floors.
- Drawers:** All drawer fronts are standard with vertically matched woodgrain. Drawers feature vinyl-wrapped 5-sided construction with 1/2" thick hardwood sides and back and 1/8" hardboard bottoms. Dovetail interior construction with 3/16" thick hardwood sides and backs and 5/32" hardboard bottoms. All drawers feature full extension, progressive action slides with precision steel ball bearings. Box drawers are tested for 100lb capacity. All suspensions have a limited lifetime warranty.
- Storage:** All hinged doors include soft close hinges. Soft close hinges reduce stress placed on the cabinet when the door is closed and offers a quiet closure.
- Locking:** All units with file drawers feature standard locking. Lock core available in black or silver. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Keyed alike units available upon request at no additional charge.

Features

- Catalyst Tables blend desired aesthetics, functionality, and technology to deliver a comprehensive solution for all types of meeting needs and environments.
- Top shape available in circular, square, rectangle, modern rectangle, and boat shapes with multiple base options including single wood and metal bases, rectangle panel, 6" rectangle, 10" rectangle, and a combination with or without accent colors.
