

# Spark Tables

## Overview+Options

From classrooms to meeting rooms, libraries to auditoriums, our Spark multi-use tables couple design with functionality to create flexible learning and collaborative environments. With a variety of sizes, surface materials, and options for flip/nest, mobile, and static bases, as well as accessories like ganging brackets, modesty panels, power units, and lecterns, Spark can be easily configured, and reconfigured, to accommodate changing group sizes and engagement needs.

Tops are pre-drilled to gang tables easily without tools. Ganging brackets are sold as a set for End-to-End, Front-to-End, and Front-to-Front applications.

Spark Lecterns provide storage and are available in static or height adjustable options. Surround available in four colors to coordinate with any environment.

Both Static and Flip/Nest Base kits provide built-in wire management access allowing users to route wires through the legs to keep kneespaces clean and tidy.

Bases come with color-coordinated casters or black glides. Tops can be paired with fixed or hinged modesty panels available in TFL, Veneer, or Acoustic materials.
