Technical Specifications

Construction & Materials

Veneer:	Exposed surfaces feature select grade, plain sliced American Black Walnut or Cherry veneers, carefully selected and matched to assure proper balance and consistency. Our veneer features UVAdvantage, an ultra-violet finish, on all exposed surfaces by utilizing roll-coat UV technology.
Laminate:	High-Pressured Laminate (HPL) tops are made of woodgrain laminates fused to particleboard core. Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance.
Tops:	Veneer tops offer a 5-ply balanced construction while High Pressure Laminate (HPL) offers 3-ply balanced construction, 1 3/16" thick with solid hardwood mitered rims; grain direction runs left-to-right unless otherwise noted.
Chassis:	Chassis is securely fastened using high quality European fastening systems, heavy-duty, 16-gauge joining brackets and wood dowels to assure maximum strength; bases are solid hardwood with mitered corners; all units have finished veneer backs and vertical grain direction; all units equipped with heavy-duty, adjustable glides to ensure proper leveling.
Drawers:	Drawers feature 5-sided construction with fronts standard with bookmatched veneer faces, 3-ply construction and 3/4" thick; drawer interiors are dovetail, wood constructed with 7/16" hardwood sides and backs, and 5/32" thick hardboard bottoms; all drawers feature full extension, progressive action slides with precision steel ball bearings; box and file drawers are tested for 100lb capacity; lateral files have 1/4" thick bottoms and are tested for 200lb capacity; all suspensions have a limited lifetime warranty; optional soft close is available on center, tray, box, and file drawers, unless otherwise noted.
Filing:	All file drawers are standard with filing systems designed to accommodate a variety of filing requirements; legal width file drawers provide legal filing front to back, and letter or legal filing side to side; letter width file drawers provide letter filing front to back, and letter or legal filing side to side.
Storage:	All hinged doors include soft close hinges, unless noted; soft close hinges reduce stress placed on the cabinet when the door is closed and offers a quiet closure.
Locking:	Central locking is standard on all desks and optional for credenzas and returns; one key in the lock cylinder locks all drawers in the desk; lock core color will coordinate with pull selection; removable lock cylinders allow for units to be re-keyed at a later date if required; units are shipped randomly keyed as standard; and keyed alike units are available upon request at no additional charge.
Cord Mgmt:	Grommets are standard in back panels of returns, bridges, kneespace credenzas, and hutch units (does not apply to height adjustable or reception units); grommets may be ordered in the tops of desks, returns, bridges, credenzas, and component worksurfaces; Undersurface Wire Managers are available for additional cord management.
Height Adj:	Electric-powered height adjustable mechanisms are compatible with either 2-channel for single surface height adjustment and 3-channel for simultaneous, two surface height adjustment; height adjustable legs available in black finish only; height adjustment range 30"H to 47"H; load capacity accommodates more than 200lbs; standard control switch is factory installed on all units except bridges and 3-channel units; grommets and one wire management channel provided within kneespace to manage wires from switch and control box; two wire management channels will be shipped with desk shells.
