## Straight Ganging Assembly Instructions

**1** First start by figuring out the desired layout of units.

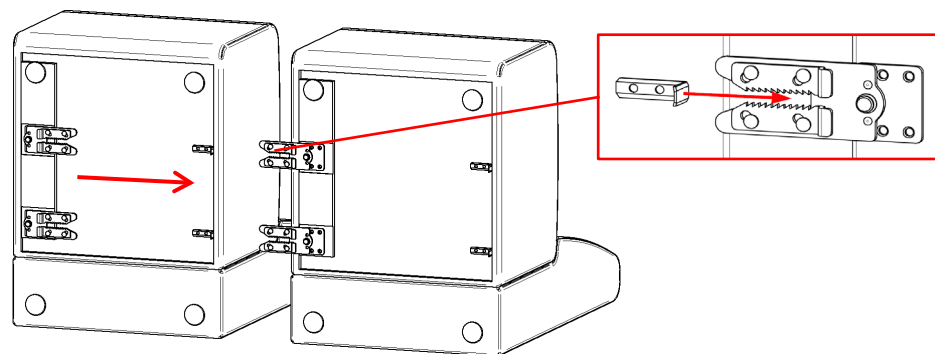

**2** Start by folding out the ganging brackets on the unit that is to be ganged to.

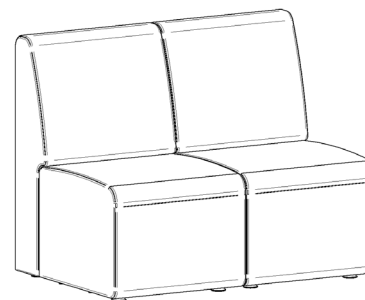

*Units should be ganged standing upright. Units shown on their back for clarity.*

**3** Align the 2 units to be ganged together. Push them together until there is no gap.

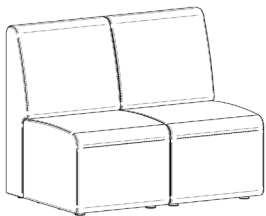

*The brackets should click as the units are pushed together.*

**4** The two units should be fully ganged and should not pull apart.

Note: Images shown are for clarity purposes only and may not match the unit that you are currently installing.

## Straight Ganging Assembly Instructions

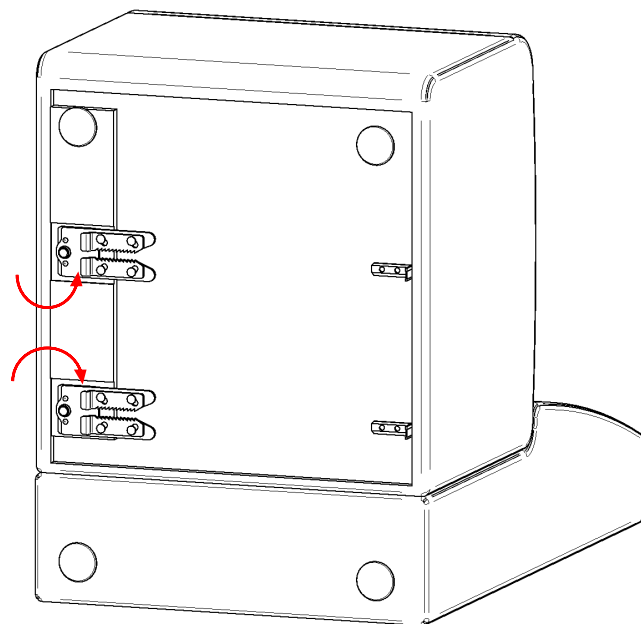

### Disassembly:

- 1 To remove a chair from a ganging application, lift the chair to disconnect it from the adjoining unit. Make sure the adjoining unit stays on the ground.

*Note: You will only need to lift the chair approx. 2" to remove the L bracket from the 2-prong portion of the ganging bracket.*

- 2 Rotate the 2-prong portion of the brackets back in. Disassembly is now complete.
