Waterfall Transaction Kit With Paperslots Assembly Instructions

Components:

- Canvas Reception Waterfall Transaction Kit
- Canvas Reception Desk Shell
- Transaction Riser Brackets
- 5/8" PPH Screws
- 1" PPH Screws
- 2" PPH Screws
- Furniture Post/Cam Connectors
- Dowels

- 1 Install dowels and posts to paper slot assembly. Install cams to waterfall panel.
- 2 Slide waterfall panel onto posts and turn cams clockwise to secure paperslots to waterfall.
- 3 Locate peck holes on inside of desk shell. Drill 1/4" thru holes as necessary to attach paperslot overlay. Please note there are many size options available. Before drilling, ensure which holes are truly necessary to attach overlay. For Corner Transaction Kits, you will do the same with the End Panel.
- 4 Place and center waterfall transaction kit on reception desk shell back panel. Secure using 2" PPH screws through holes on inside of desk shell into TFL spacers on waterfall. Note: number of TFL spacers varies with waterfall transaction kit length.
- 5 Further secure by attaching riser brackets to underside of paperslots to desk shell back panel.
