

Screens+Dividers

A functional range of options and materials to create privacy, add protection, and define personal space.

Indiana
FURNITURE

DEFINE SPACE + ADD PROTECTION.

In response to changes in working environments spurred by COVID-19, we have expanded our options to further provide privacy and safety for employees. Our functional range of screens and dividers make it easy to create space division within any environment, on nearly any product.

Simply add these new styles, with expanded widths and heights, to a worksurface, training table, and/or reception desk to create privacy, add protection, or further define personal space.

Our Screens and Dividers are responsible too. They consider the environment by using renewable and recyclable materials, allowing them to achieve indoor air quality and BIFMA level® certifications, and they comply with the mechanical standards that focus on safety and durability to meet BIFMA Compliant® certification. Further, with the ease of assembly and reconfigurability, it helps to optimize the long term cost of ownership.

Safe + Productive.

Whether you're looking to create space division between workers, add protection at reception desks, or anything in between, our broad range of screens and dividers will help you find functional solutions without sacrificing the beauty of your space.

Select from a variety of heights and widths, as well as materials like clear, frosted, and high gloss acrylics, TFL laminates, and veneers, to design a setting that is not only practical, it blends within any interior concept.
