# Luxurious Materials coupled with Distinctive Style.

What makes one interior distinct from another is the clever curating of colors, textures, and styles to create something that expresses you and your unique space.

Inspired by nature, our holistic palette provides a relevant light-to-dark spectrum that adds to the beauty of any environment, and features low-emitting finish systems to meet indoor air quality standards which support sustainable initiatives in the workplace.

From the depth of our veneers and woodgrain laminates to our enduring metal, stone, and patterned acrylics, this comprehensive program was thoughtfully selected to complement our entire portfolio of products, giving you complete freedom to create the environment you want.

All of our casegoods and tables offer UV topcoat finish as standard on our veneers. Our UV Advantage finish does not emit irritable toxins, formaldehyde, or solvents into the air, contributing to safer and healthier work environments by meeting Indoor Air Quality Certification requirements.

UV Advantage exceeds the performance of other UV topcoats available in the industry on durability and reduces the likelihood of damage from abrasions, scratches, stains, and common chemicals, while magnifying the beauty of wood by reducing the darkening, aging, and yellowing process that naturally occurs over time.
