

# BIFMA

## ATTRIBUTES OF CONTRACT FURNITURE

### Course Description:

What drives furniture decisions in the commercial built environment? Key attributes are: Aesthetics, Quality, Craftsmanship, Safety, Performance, Health & Wellness, Sustainability, and Verification. In this course BIFMA, the industry's trusted voice for commercial furniture, will dive into each of these topics to explain their influence on the decision-making process for furniture in contract environments.

### Course Objectives:

- Understand the importance of original design, process controls in manufacturing, construction methods and how this impacts safety.
- Recognize how furniture contributes to the health and wellness of occupants including chemical exposure and ergonomics.
- Evaluate important dimensions of planetary health, and the sustainability attributes associated with common materials.
- Examine relevant certification schemes and how they contribute toward safety, wellness and sustainability of furniture products.
