of contracts held by
public agencies

Trusted

by public agencies
nationwide

Why GovMVMT?

GovMVMT was founded around one basic principle:
putting public agencies first.

- **TRUST:** Our contracts are competitively solicited, evaluated, and awarded by a lead public agency, which means a commitment to compliance and low risk.
- **VALUE:** Industry-low administrative fees, which means more savings for public agencies.
- **PUBLIC AGENCY OVERSIGHT:** GovMVMT's Advisory Council oversees and guides our procurement program.
- **NOT-FOR-PROFIT:** GovMVMT is a program of the non-profit Innovative Government Services Association

What we do

GovMVMT helps combine the purchasing power of public agencies from across the country into contracts that are competitively solicited, evaluated, and awarded by a lead public agency.

GovMVMT is reestablishing the gold standard of cooperative purchasing that assures legitimate public agency bidding, conforms to the highest public procurement standards, and is validated by certified public procurement professionals.
