## Our Pledge to People + Our Planet.

We've been making wood furniture longer than just about anyone...and we want to be doing so for a long time to come. That's a large part of why we take a stewardship approach to our resources. We believe that environmental sustainability and business profits need not be mutually exclusive. They can and should exist side by side in a mutually beneficial relationship. And for more than a century, we've been showing how it's done.

We've proven our commitment to a sustainable future by supporting the standards and programs that protect our home planet and human health. Whether it's local sourcing, reducing contaminants, implementing wellness and safety programs, or diverting waste from landfills, social responsibility is a part of every decision we make at Indiana Furniture.

One of the surest ways to reduce our impact on the planet is to make and buy things that last. And this one's a natural for us. Our products are made with craftsmanship and attention to detail that are a part of our legacy in wood manufacturing. And our products are backed by our 12-year warranty, which facilitates maintenance, servicing, and reassembly.

100% of our product lines:

- Are manufactured and assembled in the USA,
- Meet or exceed Indoor Air quality standards\*,
- Meet or exceed BIFMA level® Sustainability standards and certification\*,
- Conform to the BIFMA Compliance standards and certification\*,
- Comply with TSCA Title VI (CARB) standards,
- and can contribute to LEED®, Green Globes®, and WELL® Sustainable Programs.
