Indiana Furniture Kicks Off The New Year By Introducing Healthcare-Oriented Options And Other Product Enhancements.

Jasper, IN, Jan 10, 2023 – Indiana Furniture announced today they will begin taking orders for a new healthcare-focused seating line, Gleem+, as well as for enhancements to their Natta and Canvas Reception series. These additions provide enhanced flexibility and functionality to better accommodate today's ever-changing working and patient spaces.

Inspired by the staying power and classic design of Indiana Furniture's popular Gleem Seating line, Gleem+ was designed for high traffic and multi-use areas, as well as patient management, to bring lasting comfort and style to a wide range of spaces, including Healthcare and Educational environments. With a variety of personal and tandem seating options, together with patient and hip/easy access chairs, Gleem+ makes it easy to outfit entire facilities with an array of high occupancy and bariatric seating models to provide solutions for a diverse range of users up to 400 and 600lbs. Other features include:

- **Wall Saver Design:** Every Gleem+ chair comes standard with an integrated wall saver design, helping to eliminate marks and wall scratches within your spaces.
- **Fully Upholstered or Clean Out Backs:** Gleem+ provides two back styles so you can select what works best for your spaces and users.
- **Arm Caps:** Optional black polyurethane arm caps are available on all Gleem+ models, allowing you to protect the wood finish and increase the lifespan of the chair.
- **Ganging + Freestanding Tables:** Gleem+ offers a range of ganging and freestanding tables to provide additional functionality and complete the spaces throughout your facilities.
- **Personalized Look:** A broad range of wood finishes, as well as graded-in and contract upholstery options give you complete freedom to specify Gleem+ in the colors and patterns of your choice, including the ability for single or contrasting upholstery.

Besides Gleem+, Indiana Furniture has expanded the Natta line to include a Swivel Stool. This addition complements the current Natta Stationary Stool, Benches, and Tables to provide options for a variety of personal, shared, and collaborative spaces. The Natta Swivel Stool features 90° movement from the center in each direction, an auto-return mechanism, black or chrome foot ring, and single or contrasting upholstery.

The Canvas Laminate Reception series was also enhanced to include HPL and Contrasting Chassis/Worksurface options. These additions allow you to further personalize the design, giving the appearance and feel of custom millwork by simply specifying standard models.

"We continue to take our products to another level of design and expand our portfolio to provide options that effortlessly support working needs and a broader range of users," says Mike Blessinger, VP of Sales & Marketing for Indiana Furniture. "These additions further our portfolio's capabilities for our clients and their diverse levels of style."

Indiana Furniture's products are manufactured in the USA, they consider the environment by using renewable and recyclable materials, allowing them to achieve indoor air and BIFMA level® certifications, and meet or exceed the standards set forth by BIFMA Compliance®, giving you confidence in the construction and durability of the offerings.
